

JUNE 2010

Dear NO PROBLEM MOVERS:

I am not sure how best to convey our sincere thanks for the care, concern and ultimate relocation of the Hockey Hall of Fame's archival collection - thank you NO PROBLEM MOVERS!

The move of the HHOF collection was not an easy assignment. There was internal concern about this important part of the move from our archives space in downtown Toronto museum to our new facility, the DK Doc Seaman Hockey Resource Centre and Archives, west of the downtown core.

I met with three other companies along with NO PROBLEM MOVERS. I must admit that I did not look forward to making the final decision on the moving company. However after my initial meeting with Pedro Tehranian I began to have a "gut feeling" that this was the right guy and NO PROBLEM MOVERS was the right company. Hockey relies on teammates and our friends at NO PROBLEM MOVERS are superb teammates as I have come to find out.

Our collection is world renowned and possesses many fragile pieces as well as those that reside in unique climate conditions. NO PROBLEM MOVERS provided the efficiency and expertise that I could have only hoped for when given this task to oversee the move.

The Hockey Hall of Fame is a registered Canadian charity that preserves the game of hockey – all leagues and all levels worldwide. We are not funded directly by government or by any hockey entity. Despite our well known status in the hockey world, we are in a situation where funds are limited for any project we undertake. A downturn in attendance affects our departmental budgets. Attendance with respect to SARS, recession, US passports required and the US dollar at almost par it has been a tough decade. NO PROBLEM MOVERS was one of only two companies who verbally indicated their understanding of our charitable status. The NO PROBLEM MOVERS first and final estimate reflected this fact.

Personal, prompt and courteous are words to describe their management and on-site movers. They are dedicated to the job at hand and willing to do everything it requires to get the job done correctly. They supplied all necessary packing materials and helped to coordinate the logistics with respect to our landlords Brookfield Properties and the MasterCard Centre.

They are experts and they warrant your consideration for your move however big or small. I would recommend NO PROBLEM MOVERS to any museum, business or person.

For any questions concerning our fine experience with NO PROBLEM MOVERS please do contact me directly.

Sincerely,

Craig Campbell

Manager, Resource Centre and Archives
